Two Trips

- Fernow, 7FJ, Maude — two day, Entiat “slam”.
- Eldorado NE Face — end of season attempt to get last ice climb.

August in the Entiat is lovely. Lots of wildflowers.

Also lots of fresh scree on steep slopes to enjoy.

Misty mountaintops.

Google Earth FTW on post-facto navigation.

Eldorado, September 2019.

Eldorado, September 2019.

Eldorado, September 2020.

Then there was smoke.

And a whole bunch of snow.

(Thankfully none on the boulder field or
on the slabs in the basin.)

Eldorado, October 2020. Awesome bivy spot!

Snow really filled things in.

Summit was still fun.

The company was still great,
and the berries were good.
